Subject: Application for Participation in YNU International Symposium 2026 (Yokohama-SXIP Program)

Respected Sir,

I am Muthu Rajan M (2023103061), a B.E. Computer Science and Engineering student at the College of Engineering Guindy, Anna University. I am writing to express my interest in participating in the YNU International Symposium 2026 (Yokohama-SXIP Program) at Yokohama National University, Japan.

As a student passionate about technology, innovation, and leadership, I have actively pursued opportunities that contribute to both my academic and personal growth.

One of the most valuable experiences in my academic journey was being selected for the Ashtalakshmi Darshan Youth Exchange Programme, a Government of India initiative organized by MDoNER and the North Eastern Council (NEC). The program provided me with the opportunity to interact with students from diverse cultural backgrounds, develop cross-cultural communication skills, and gain a broader perspective on collaboration and leadership. This experience strengthened my interest in international learning and cultural exchange.

In the field of innovation, I led the development of Green Conditioner, a thermoelectric-based dual heating and cooling system funded with ₹70,000 by the CEG Tech Forum. The project secured First Place at a National-Level Project Display Competition, earning a ₹50,000 cash award, and resulted in a Provisional Patent Application (2025). This experience enhanced my research, problem-solving, and project management skills.

I am also currently working as a Software Development Engineer at CSRC, Anna University, contributing to the development of a Financial Management Software using the PERN Stack. Additionally, I serve as Treasurer of NSS Unit 12 and Deputy Director of the LEO Club of CEG, where I actively organize events, outreach initiatives, and student activities. I believe the YNU International Symposium will provide an excellent platform to collaborate with students from around the world, gain exposure to new ideas and research practices, and represent Anna University on a global stage. I am confident that my experience in research, leadership, software development, and student exchange programs will enable me to contribute meaningfully to the symposium.

I kindly request you to consider my application for this prestigious opportunity.

Thank you for your time and consideration.

Muthu Rajan M
